

HO Structure Kit

CONCRETE-STYLE SILO

933-3332

Thanks for purchasing this Cornerstone Series® kit. All parts are styrene, so use compatible glue and paint with your model. Please read these instructions and study the drawings before starting.

For more ideas to detail your scene, ask your dealer, visit our Web-site walterscornerstone.com or see the latest Walthers HO Scale Model Railroad Reference Book.

1. Glue the three wall segments (2, 3, 4) together as shown in the illustration using the base to hold them while gluing. Center one of the walls segment joints over the base protrusion that will hold part (5).

2. Glue chute (5) onto silo using corresponding shape on the base. The chute will hide one of the three wall segment joints.

Top View

3. Using the top view as a guide, glue roof (6) into place. Notice the position of the loading hatch in comparison to the chute.
