

H0 Scale Structure Kit

BOILER HOUSE

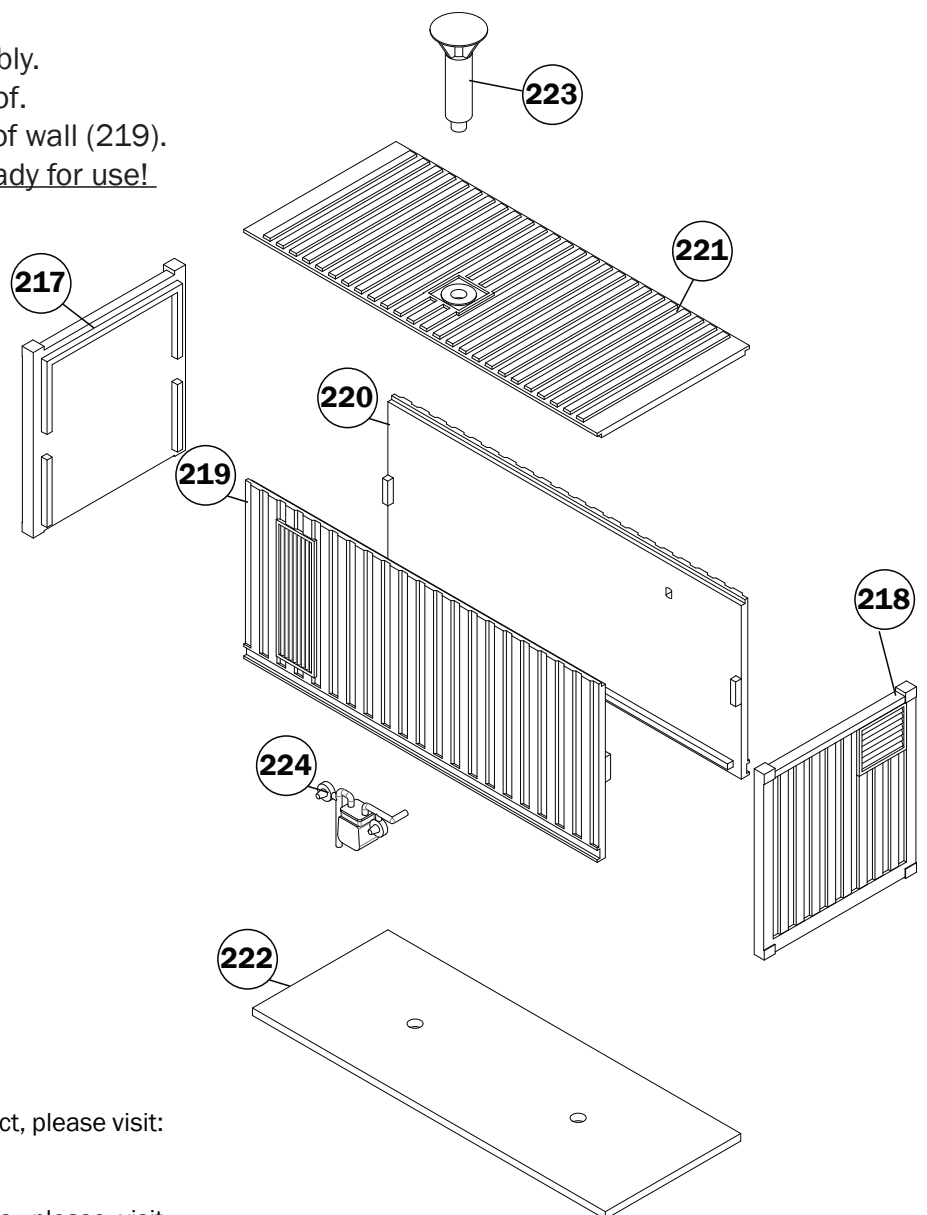

933-4182

Thank you for purchasing this Cornerstone Series kit. Please study the instructions and drawings before starting. All parts are styrene plastic, so use compatible glue and paint to assemble your model.

This versatile structure started life as a shipping container and now serves as a boiler house to provide auxiliary steam and heat for transload facilities or other industrial sites. The utilitarian design is common and fits well into any modern scene.

ASSEMBLY

1. Begin with the walls, (217, 218, 219 and 220)
gluing them to the base, (222) following the drawing.
 2. Glue the roof (221) to the wall assembly.
 3. Glue the exhaust pipe (223) to the roof.
 4. Glue the gas meter (224) to the side of wall (219).
- Your structure is now complete and ready for use!
